PROFILE

Computer Science student major in Software Engineering with a strong interest in Frontend Development and Quality Assurance (QA) Testing. Skilled in developing responsive web and mobile user interfaces, implementing user-centered designs, and performing manual and automated software testing. Eager to apply academic knowledge in a professional environment, collaborate effectively with teams, and strengthen technical, problem-solving, and documentation skills through real-world software development experience.

EDUCATION

Manuel S. Enverga University Foundation | Lucena City, Quezon

Aug 2023 - Present

Bachelor of Science in Computer Science, Major in Software Engineering

- Consistently recognized as a University and College Scholar and Dean’s Lister throughout the semester, maintaining a GWA ranging from 1.25 to 1.53.

EXPERIENCE

Student Software Developer & QA Tester — Academic & Competition Projects

Aug 2023 - Present

- Developed and tested software applications using programming, development, and quality assurance practices.
- Implemented application functionality, database structures, and system components based on project requirements.
- Conducted functional testing, debugging, and troubleshooting to identify defects and improve software reliability.
- Designed user interfaces and interactive prototypes with a focus on usability and user requirements.
- Collaborated with team members in requirements analysis, development, testing, documentation, and project delivery.

Research Committee | PSITES / MASTECH

Jul 2024 - May 2026

- Organized and maintained committee documents while supporting research for college programs and events.
- Reviewed and validated student records for Dean’s List eligibility and helped coordinate academic and departmental submissions.

Research Committee | MSEUF Wildcats Esports

Aug 2025 - Nov 2025

- Conducted research for event concepts, themes, and production materials for esports events.
- Managed online registration forms for organization members and tournament participants using Google Forms.
- Supported event preparation and provided operational assistance during esports tournaments.

Social Media Manager (Marketing Department) | MSEUF Wildcats Esports

Jan 2025 - May 2025

- Managed social media post scheduling and created written content for community updates and announcements.
- Assisted in tournament operations by providing event marshaling and technical support during esports competitions.

PROJECTS

ResQ: A Centralized Blood Donation Management System Using Decision Tree

Mar 2026 - Present

Classification and Min-Heap Priority Scheduling

Thesis Project | Business Analyst & QA Tester

- Developed a centralized blood donation management system with a Flutter donor mobile application and React.js hospital administration dashboard.
- Implemented Decision Tree Classification for donor eligibility screening and Min-Heap Priority Scheduling to prioritize emergency blood requests based on urgency and proximity.
- Designed core system features, including donor registration, appointment scheduling, QR check-in, blood inventory management, and administrative reporting.

SKILLS

Technical Competencies:

- Python & Java | Dart & Flutter | Web Development | Mobile Development | Database Management (MySQL) | Software Testing and QA | Git & GitHub | IDEs (VS Code, Android Studio, IntelliJ) | UI/UX Design (Figma) | Debugging & Troubleshooting

Coordination & Soft Skills:

- Teamwork & Collaboration | Communication | Adaptability & Continuous Learning | Problem-Solving | Critical Thinking | Process Coordination | Attention to Detail | Technical Document | Microsoft Office Suite

CERTIFICATIONS & COMPETITIONS

- DAP NextGenPH 2026 (Participant / Competitor) Ongoing
- Microsoft Azure Fundamentals - AZ-900 (Microsoft | Coursera) Jul 2026
- Software Testing, Deployment, and Maintenance Strategies (IBM | Coursera) Jun 2026
- MSEUF Startup Pitch Competition — Top 10 Finalist May 2025
- Flutter and Dart: Developing iOS, Android, and Mobile Apps (IBM | Coursera) Apr 2025
